THEY WILL REFORM

Eight Bad Boys Promise to Lead Exemplary Lives.

Recorder John yesterday began the very laudable but very strenuous work of undertaking to make good young men out of eight heretofore very bad boys. Before laying his plan to lead up the work very carefully, and spend considerable time in thinking out a scheme of salvation for the lads.

The boys returned to are the four arrested Thursday and four more arrested yesterday, all belonging to the same criminal fraternity and all accused of complicity in a series of robberies that have been perpetrated with alarming frequency and with small degree of shrewdness. The boys, in fact, had worked greatly by all bleeding solely to the charges made against them and in agreeing with the court that if he could make anything out of them he ought to be given the opportunity, and they in turn promised to help him in the work.

The eight were all lined up on the bench in the court room when proceedings began. Julio and Estevan Marrero and Clarence Wessman were charged with stealing 72 grain sacks from Walter Hill's warehouse.

Lockey Meade and Clarence Wessman were charged with stealing and selling George Loring's revolver. Joseph Deband was charged with stealing a box of cartridges of Sage Pennington.

Ben McFarland was charged with stealing ten grain sacks from D. Downing.

Leon and Ray Rambo were charged with stealing a quantity of smoking tobacco from J. W. Morris. Leon admitted as to the quantity and Ray denied.

THE REPUTATION OF DR. HIBBARD

As an educator and successful specialist is thoroughly established. His reliability, far-reaching skill and progressiveness are fully acknowledged. Don't experiment; make no mistake; get the best treatment. Dr. Hibbard succeeds in cases that have ordinary methods. He uses electric belts or treatments at simple and trial packages. Shun electro-medical devices, etc. Do not indulge in such misleading propositions. If you do your condition will be worse instead of better. I treat each case by itself, not by a job lot system. Get accurate understanding the disease with all its complications, then applying the most effective remedies. If your case be hereditary you will be told so. If curable, science, skill and experience will insure your recovery. I make a specialty of sexual physiology. Those and of comparatively young men are broken down by physical weakness and decay. Such cases can be cured. The general practitioner, however, utterly fails. He lacks concentration of faculties and cannot reach what the specialist reaches. Blood poison, with syphilitic conditions, being with all that is destructive to the human system, can be cured without injurious drugs. My method is that of the best European specialists. The blood, animal tissues and nerves are restored. Eruptions, rashes, etc., rapidly disappear. The patient soon feels like a new man. Danger is ahead if you neglect scientific special treatment. The longer or you wait the more serious your case becomes until at last you become physically wrecked. C. Green and external growths removed without the knife or surgical measures. Testimonials at office. Home treatment may be had in some cases. Although personal interview is better. Consultation Free. All medicines will be sent according to directions. Call or address: 8 South Second Avenue, Hibbard Building, Phoenix, Arizona. Hours: 10 to 12, 2 to 5, 8 to 9.

STORIES DO NOT AGREE

Jose Mesa Has a Glib Tongue and a Short Memory.

Jose Mesa, a Mexican who claims to have come here from Los Angeles about three weeks ago, was arrested yesterday by Officer Russell in the alley near the Hoffman. The officer's suspicion was directed to him by a number of boys who reported that he had a fine watch chain he was trying to sell for fifty cents. They also said he had a nice watch that he had disposed of sometime before.

When arrested Mesa had under his arm a pair of shoes, nearly new, wrapped in a newspaper. When asked where he got them he said he had bought them at Diet's. When that was found to be untrue he suggested the Hub, and when that story failed of substantiation he said he had bought them of a Mexican for half a dollar. It was noted that the shoes were number 6 1/2 while Mesa wears an 8. In explanation he said he bought the shoes not because he needed them but because he wanted to help a fellow countryman who was in distress. There is little doubt but he stole the shoes, which are of Hamilton & Brown manufacture, and if the owner will come forward and claim them some light may be thrown on the conduct of the accused, who is believed to be a professional thief.

In regard to the watch disposed of he said he had bought it for fifty cents of some boys and had sold it for ten dollars. He could give no satisfactory account of where he had been spending his nights.

Begin with the rules of life and you may end with the vice of it.

LINNENETTE UNDERWEAR

The material out of which "Linnenette" underwear is made is treated by a process which makes it as absorbent as fine Australian wool, and more so than best linen. It therefore combines the good qualities of both, while not giving the warmth of the wool nor the feeling of harshness of the linen. It is the
